FOR IMMEDIATE RELEASE

Universal Lighting Technologies Expands EVERLINE® Retrofit Options with LRK34-ML Ideal for Commercial Applications

NASHVILLE, Tenn. (Dec. 13, 2019) - Universal Lighting Technologies, Inc., a global leader in lighting and a member of the Panasonic Group, recently introduced its EVERLINE® LRK34-ML LED Linear Retrofit Kits to its high-efficiency line of products, designed for commercial applications such as factories, warehouses and gymnasiums.

The fast and easy-to-install LRK34-ML kit is intended for retrofitting mid and high bay T5HO and T8 fixtures. It comes with three EVERLINE LED lightbars and a 0-10V dimmable 80W driver, providing 14,000 lumens. The LRK34-ML allows building owners and facility managers to replace the fluorescent system with a highly efficient LED light engine with no redesign or revised layout required. With an L85 lumen maintenance rating of greater than 60,000 hours, the LRK34-ML provides a brand-new light engine without having to replace the existing fixture housing.

“ULT is dedicated to providing cost effective solutions that save our customers time and money, allowing them to easily replace parts without a complete restructure,” said Greg Bennorth, Product Director of LED for Universal. “Providing supreme flexibility for large scale commercial applications, the LRK34-ML aims to make retrofits easier than ever.”

The LRK34 is UL classified and DesignLights Consortium® (DLC) Qualified. Designed for maximum durability, the LRK34-ML offers a seven-year warranty. It is available in 1-pack and 6-pack options. For more information on Universal Lighting Technologies, visit www.unvlt.com.

About Universal Lighting Technologies, Inc.

Universal Lighting Technologies, Inc. a member of the Panasonic group and a subsidiary of Panasonic Lighting Americas, Inc., engineers, manufactures and markets innovative solutions for commercial lighting across North America, including LED drivers, LED modules, fluorescent, HID and connected devices using wired and wireless technology.
